The Amazing Spider-Man

The Amazing Spider-Man is an ongoing American comic book series featuring the Marvel Comics superhero Spider-Man as its title character and main protagonist

The Amazing Spider-Man is an ongoing American comic book series featuring the Marvel Comics superhero Spider-Man as its title character and main protagonist. Being in the mainstream continuity of the franchise, it was the character's first title, launching seven months after his

introduction in the final issue of Amazing Fantasy. The series began publication with a March 1963 cover date and has been published nearly continuously to date over six volumes with only one significant interruption. Issues of the title currently feature an issue number within its sixth volume, as well as a "legacy" number reflecting the issue's overall number across all Amazing Spider-Man volumes. The title reached 900 issues in 2022.

The series began as a bimonthly periodical before being increased to monthly after four issues. It was the character's sole monthly headlining title until Peter Parker, the Spectacular Spider-Man would launch in 1976. After 441 issues, The Amazing Spider-Man was restarted in 1999 as issue No. 1 of Volume 2. It ran for 58 issues before reverting to the title's overall issue number with #500 in 2003. The series ran essentially continuously over the first two volumes from 1963 until...

Monkey D. Luffy is the series' main protagonist, a young pirate who wishes to succeed Gold Roger, the deceased King of the Pirates, by finding his treasure, the "One Piece". Throughout the series, Luffy gathers himself a diverse crew named the Straw Hat Pirates, including: the three-sword-wielding combatant Roronoa Zoro (sometimes referred to as Roronoa Zolo in the English

manga); the thief and navigator Nami; the cowardly marksman and inventor Usopp; the amorous cook and martial artist Sanji; the anthropomorphic reindeer and doctor Tony Tony Chopper; the archaeologist Nico...

I've re-worded to "the 2007 game". To avoid repetition and length, and the fact it's a remaster (self-explanatory), I didn't bother to give the genre again, and the alternative "the 2007 first-person shooter" didn't seem suitable. My only concern now is that the sentence length is almost at that point where someone might ask for it to be split (again). Wikibenboy94 (talk) 20:57, 12 April 2021 (UTC)[reply]

2022 in American television

"ANIMATION TAKES FOREVER!In the meantime, enjoy my Season 3 teaser filled with gorgeous coloring book pages of me and Ives. #DCFanDome [VIDEO]" (Tweet)

In American television in 2022, notable events included television show debuts, finales, and cancellations; channel launches, closures, and re-brandings; stations changing or adding their network affiliations; information on controversies, business transactions, and carriage

disputes; and deaths of those who made various contributions to the medium.

The One Piece manga features an extensive cast of characters created by Eiichiro Oda. The series takes place in a fictional universe where vast numbers of pirates, soldiers, revolutionaries, and other adventurers fight each other, using various superhuman abilities. The majority of the characters are human, but the cast also includes dwarfs, giants, mermen and mermaids, fishermen, sky people, and minks, among many others. Many of the characters possess abilities gained by eating "Devil Fruits". The series' storyline follows the adventures of a group of pirates as they search for the mythical "One Piece" treasure.

The "small improvements" are referring to the gameplay changes, hence why it's mentioned straight after gameplay in that sentence. I've added "to it" at the end for clarity though. Wikibenboy94 (talk) 20:57, 12 April 2021 (UTC)[reply]

Being a remaster of an existing product, my only major concern with the article is that (as I've experienced already by editors) coordinators may struggle to reach a consensus on whether the article's Gameplay section should simply list the notable changes between it and the original game, whilst linking to the original game's article for a full rundown of gameplay features (as it currently does). The other alternative is to give the remaster article a full breakdown of gameplay information, mirroring the original game's article, and allowing the remaster article to stand on its own and not rely on the other for clarity. On the American late-night live television sketch comedy and variety show Saturday Night Live (SNL), a commercial advertisement parody is commonly shown after the host's opening monologue. Many of the parodies were produced by James Signorelli. The industries, products, and ad formats targeted by the parodies have been wide-ranging, including fast food, beer, feminine hygiene products, toys, clothes, medications (both prescription and over-the-counter), financial institutions, automobiles, electronics, appliances, public-service announcements, infomercials, and movie & TV shows (including SNL itself).

His most famous body of work as Gir concerns the Blueberry series, created with writer Jean-Michel Charlier, featuring one of the first antiheroes in Western comics. As Mœbius, he achieved worldwide renown with science-fiction and fantasy comics drawn in a highly imaginative, surreal, almost abstract style. These works include Arzach and the Airtight Garage of Jerry Cornelius. He also collaborated with avant garde filmmaker Alejandro Jodorowsky for an unproduced adaptation of Dune and the comic-book series The Incal.

The concept of a dedicated automobile for the superhero originates in Detective Comics issue #27 (May 1939), with the name being coined in issue #48. Its appearance has varied but, since early appearances, the Batmobile has had a prominent bat motif, typically including wing-shaped tailfins. Customized in the early stages of Batman's career, each incarnation has reflected evolving car technologies. It has been portrayed as having many uses, such as vehicular pursuit, prisoner transportation, anti-tank warfare, riot control, and as a mobile crime lab. In some depictions, the Batmobile has individually articulated wheel mounts and is able to be remotely operated. It has appeared in various media outside

comics including television, films, and video games, and has since become part of popular culture.

remastered original sound effects - There's nothing inherently wrong with this and it gets the point across well, but perhaps an adjective besides "remastered" would work better given the game title?

Transformers: Revenge of the Fallen is a 2009 American science fiction action film based on Hasbro's Transformers toy line. The film is the second installment in the Transformers film series and a sequel to Transformers (2007). The film is directed by Michael Bay and written by Ehren Kruger, Roberto Orci, and Alex Kurtzman. Set two years after the events of Transformers, Revenge of the Fallen recounts the battle

between the Autobots, led by Optimus Prime (voiced by Peter Cullen), and the Decepticons, led by Megatron (voiced by Hugo Weaving). The Autobots and Sam Witwicky (Shia LaBeouf) ally again to face an ancient Decepticon named the Fallen (voiced by Tony Todd), who pursues revenge on Earth.

This article is about the 2016 remaster of the 2007 video game Call of Duty 4: Modern Warfare, titled Call of Duty: Modern Warfare Remastered. I have been the largest contributor since the article's inception in 2017, and assisted in getting it to GA a few months later. Since then, I have continued to improve and expand upon it in that time. This is my first FAC nomination, and in preparation, the article has undergone a peer review earlier in the year:

Jean Giraud

Trading card company Comic Images released a "Mœbius Collector Cards" set in 1993,

featuring characters and imagery from all over his Mœbius universe,

Jean Henri Gaston Giraud (French: [ʒiʁo]; 8 May 1938 – 10 March 2012) was a French artist, cartoonist, and writer who worked in the Franco-Belgian bandes dessinées (BD) tradition. Giraud garnered worldwide acclaim predominantly under the pseudonym Mœbius (; French: [møbjys]) for his fantasy/science-fiction work, and to a slightly lesser extent as Gir (French: [ʒiʔ]), which he used for his Western-themed work. Esteemed by Federico Fellini, Stan Lee, and Hayao Miyazaki, among others, he has been described as the most influential bande dessinée artist after Hergé.

Development on a sequel to Transformers began by May 2007. With deadlines jeopardized by possible strikes by the Directors Guild of America and the Screen Actors Guild, Bay managed to finish the production on time with the help of previsualization and a scriptment. Shooting took place between May and September 2008, with locations in Egypt, Jordan, Pennsylvania, New Jersey, and California, as well as air bases in New Mexico and Arizona.

Urban legends about drugs

legend that is popular among both the drug and video gaming subcultures is that the mushroom powerup in Super Mario games is actually based on psilocybin mushrooms

Many urban legends and misconceptions about drugs have been created and circulated among young people and the general public, with varying degrees of veracity. These are commonly repeated by organizations which oppose all classified drug use, often causing the true effects and dangers of drugs to be misunderstood and less scrutinized. The most common subjects of such false beliefs are LSD, cannabis, and PCP. These misconceptions include misinformation about adulterants

or other black market issues, as well as alleged effects of the pure substances.

Many of SNL's ad parodies have been featured in prime-time clip shows over the years, including an April 1991 special hosted by Kevin Nealon and Victoria Jackson, as well as an early 1999 follow-up hosted by Will Ferrell that features his attempts to audition for a feminine hygiene commercial. In late 2005 and in March 2009, the special was modernized, featuring commercials created since the airing of the original special.

This will be mostly a prose review, but if I happen to see anything else that needs fixing I'll point it out. I tend to be pretty nitpicky and generally go by what sounds best to me, so feel free to ask me about these changes and/or not make some of them.

The second sentence in the lede has a few issues - 2007's Call of Duty 4: Modern Warfare sounds like the game was published/developed by "2007", it's unclear whether initially released as past of... applies to the base game or the remaster, and I believe the comma after November 2016 is extraneous.

While the preceding sentence makes the changes sound sweeping, they are then described as "small improvements".

Call of Duty: Modern Warfare Remastered[edit]

Online petitions aren't really "released", perhaps "gained traction" or something similar would work better here?

It was actually that initially, but was changed during one of the copy-edits. Wikibenboy94 (talk) 20:57, 12 April
